AUTHOR CONTRIBUTION FORM

Title of the Manuscript :.....
.....
Corresponding Author :.....

1. Authorship Eligibility; An individual is eligible for authorship if they have substantively contributed to the research in at least three ways, as delineated in the established authorship criteria table. These contributions must reflect a significant intellectual commitment to the work.
2. Manuscript Preparation Contribution;It is a requirement for all authors to actively participate in the conceptualization of the manuscript's structure or to contribute intellectually through rigorous review or critique of the content.
3. Consensus on Final Draft; The final version of the article must receive unanimous approval from all authors before submission for publication, ensuring collective responsibility for the published work.
4. Fulfillment of Core Criteria; Authors are expected to fulfill the first three criteria to be considered substantive contributors and to be credited as authors of the research.
5. Acknowledgment of Additional Contributions; Contributors who do not meet the authorship criteria should receive acknowledgment within the "Acknowledgements" section of the manuscript, acknowledging their support without granting authorship status.
6. Conformance to Editorial Standards; The terms and conditions herein are formulated in accordance with the guidelines provided by the Council of Science Editors (CSE) and the International Committee of Medical Journal Editors (ICMJE). For comprehensive details and guidelines, refer to the accessible link provided: http://www.icmje.org
